

Recharge 7000 Free TikTok Coins Brand New

[LAST UPDATED: May 23, 2025]

TikTok, one of the fastest-growing social media platforms, has revolutionized the way users engage with content. One of the most exciting features of TikTok is its virtual currency—TikTok coins—which can be used to send gifts to creators during live streams. These gifts are a form of appreciation and support for content creators, and they also boost engagement between creators and their followers. If you're wondering how to unlock, buy, and recharge TikTok coins, or even how to get free TikTok coins, this guide will explain everything you need to know.

What Are TikTok Coins? TikTok coins are a type of virtual currency used on the platform. Users can buy coins with real money, and these coins can be used to send virtual gifts to their favorite TikTok creators during live streams. Creators, in turn, can convert the gifts they receive into diamonds, which can then be cashed out as real money.

Some popular gifts include:

Panda (5 coins)

Rainbow Puke (100 coins)

Concert (500 coins)

Drama Queen (5000 coins)

The more expensive the gift, the more it signifies appreciation for the creator. This system helps foster a deeper connection between fans and influencers.

How Much Do TikTok Coins Cost?

The cost of TikTok coins varies depending on the region and can change based on promotions. However, here is a general price guide:

100 TikTok coins = \$1.29

500 TikTok coins = \$6.49

1,000 TikTok coins = \$12.99

5,000 TikTok coins = \$64.99

10,000 TikTok coins = \$129.99

Keep in mind that prices may fluctuate, and the app may offer discounts on TikTok coin purchases at different times.

Where to Buy TikTok Coins?

Buying TikTok coins is an easy process, available directly within the app. Here’s how you can buy TikTok coins:

Open the TikTok App: Log into your TikTok account.

Go to Your Profile: Tap on your profile icon located at the bottom right of the screen.

Access Settings: Click on the three dots (menu) in the upper-right corner and navigate to “Balance.”

Buy Coins: Tap the “Recharge” button. You will be shown different TikTok coin packages to choose from.

Payment Method: You can pay for coins using credit/debit cards, PayPal, or even Google Pay/Apple Pay, depending on your device.

Once the payment is complete, TikTok coins will be added to your balance, which you can then use to send gifts to creators.

How to Recharge TikTok Coins

Purchasing TikTok coins is straightforward. Here’s a step-by-step guide:

Open the TikTok App: Launch the TikTok app on your mobile device and log into your account.

Access Your Profile: Tap on the "Profile" icon in the bottom right corner of the screen.

Go to Settings: Click on the three horizontal lines in the top right corner to open the settings menu.

Select "Balance": Look for the “Balance” option in the menu, which will show your current coin balance.

Buy Coins: Click on "Recharge" to see the various packages of coins available for purchase. Prices may vary depending on your region, but TikTok usually offers several options for different budgets.

Choose a Package: Select the coin package you wish to purchase. Each package shows the number of coins you’ll receive and the total cost.

Confirm Payment: After selecting a package, confirm your payment method. You can pay using credit/debit cards or linked payment services.

Receive Coins: Once your payment is processed, the coins will be added to your account immediately.

This process allows users to support their favorite creators easily. However, not everyone has the budget to spend real money on coins, so here are ways to acquire TikTok coins for free.

How to Get Free TikTok Coins

While purchasing TikTok coins is simple, many users seek ways to obtain them without spending money. Here are some strategies to consider:

Live Streaming: If you are a content creator, one of the best ways to earn free TikTok coins is by going live. During live streams, viewers can send you gifts, which can be converted into coins. The more engaging and entertaining your live streams, the more gifts you are likely to receive.

Joining Creator Fund: TikTok offers a Creator Fund that pays creators based on their content's performance. While this fund does not directly provide coins, it allows creators to earn money that can be used to purchase coins. To qualify, you must meet specific criteria, such as having a certain number of followers and views.

Participate in Challenges and Contests: TikTok frequently hosts challenges and contests where participants can win prizes, including coins. Keeping an eye on trending challenges can lead to opportunities for free coins.

Promotions and Giveaways: Some creators and brands on TikTok run promotions and giveaways that include coins as prizes. Follow popular creators and participate in their giveaways to increase your chances of winning free coins.

Referral Programs: TikTok sometimes offers referral programs where users can earn rewards, including coins, by inviting friends to join the platform. Check if TikTok is currently running such a program and make the most of it.

Check for Special Events: During holidays or TikTok anniversaries, the platform may offer special promotions or events that allow users to earn free coins or bonuses. Stay updated on TikTok's announcements and take advantage of these opportunities.

How to Use TikTok Coins to Send Gifts

Once you've purchased or recharged your TikTok coins, you can start sending virtual gifts to creators. Here's how:

Join a Live Stream: Go to the live stream of the creator you want to support.

Select a Gift: Click on the "Gift" button (usually represented by a gift box icon) at the bottom of the screen.

Choose a Virtual Gift: TikTok offers a range of gifts, each costing a different amount of coins. Select the gift you want to send.

Send the Gift: Once you've selected a gift, tap "Send," and the gift will be delivered instantly.

The creator will receive the gift during the live stream and can see who sent it. As a fan, this is a great way to get recognized by your favorite creators, and it helps support them.

Cheap TikTok Coins Recharge: How to Save Money

While buying coins through TikTok's in-app store is the most straightforward method, there are ways to get TikTok coins at a lower cost.

Look for Discounts and Promotions

TikTok occasionally offers discounts on coin packages. During special events, holidays, or anniversaries, you may find reduced prices on select coin bundles. Make sure to keep an eye out for these deals in the TikTok app.

Use Gift Cards

You can also purchase app store gift cards (e.g., Google Play or Apple Store) when they are on sale and use them to buy TikTok coins. This allows you to indirectly get TikTok coins at a discount.

Third-Party Payment Platforms

Some third-party payment platforms, such as PayPal, occasionally offer cashback promotions for in-app purchases. Check for such promotions before buying coins to save a little extra money.

TikTok Coin Gifting Experience

To get the most out of your TikTok gifting experience, consider the following tips:

Engage with Creators: Follow and engage with creators whose content you enjoy. Like, comment, and share their videos to build a rapport. The more engaged you are, the more likely they are to notice you during their live streams.

Plan Your Gifts: Before buying coins, plan your gifts strategically. Instead of sending multiple small gifts, consider saving up for a larger gift that shows your appreciation more significantly.

Stay Updated on Trends: Keep an eye on trending gifts and events. TikTok frequently introduces new gifts that may have unique features or visual appeal. Being aware of trends can make your gifting experience more enjoyable.

Support Emerging Creators: Consider supporting smaller or emerging creators who may need encouragement to grow. Your gift can significantly impact their journey and foster a positive community on TikTok.

Engage in Community Discussions: Participate in discussions within the TikTok community about the best gifts and creators. Sharing your experiences and insights can lead to discovering new creators and gifting strategies.

TikTok Coin Recharge: Safety and Tips

When buying or recharging TikTok coins, it's important to follow best practices to ensure that your purchases are safe and secure:

1. Use Trusted Payment Methods

Always use legitimate payment methods like credit cards, PayPal, or Google Pay/Apple Pay for coin purchases. Be wary of third-party apps or websites that claim to offer discounted TikTok coins, as these could be scams.

2. Check for Special Offers

TikTok sometimes offers discounts or bonuses when purchasing coins in bulk, so keep an eye out for these special offers. It's always a good idea to wait for promotions before buying large amounts of coins to get the best deal.

3. Be Aware of Fake Free Coin Generators

Unfortunately, some websites and apps claim to offer "free TikTok coins" through hacks or generators. These are almost always scams. TikTok does not support third-party coin generators, and using them can lead to your account being banned or compromised.

4. Track Your Spending

If you find yourself frequently sending gifts to creators, it's a good idea to track your spending. TikTok coins can quickly add up, so make sure you're aware of how much you're purchasing and gifting. Set a monthly limit if needed to avoid overspending.

Final Thought

TikTok coins play a significant role in enhancing user engagement and supporting content creators on the platform. By understanding how to unlock, buy, and recharge TikTok coins, you can easily participate in live streams and show appreciation for your favorite creators. Although TikTok coins typically require real money to purchase, there are some methods—like giveaways and referral programs—that offer opportunities to earn free coins.

If you're interested in saving money, don't forget to watch for discounts, promotions, and third-party cashback offers. Whether you're buying coins to send gifts or looking for ways to get them for free, TikTok's coin system provides a fun and rewarding experience for both users and creators alike.
